C2S: +55 highly qualified & experienced technicians ready to help you all over the world!

SPARE PARTS

Spare parts inventory is critical for an effective maintenance program and O.E.E.Strong of its worldwide presence (warehouses in Europe, North America and Asia), theGauder Group enables the C2S department to manage a smart and proactive stock ofthousands of items - ready for shipment - for all brands,

UPGRADES

The C2S design offices and technical teams (either mechanical or automation/control)are available to study any improvement, aiming to maintain performances and restoreproductivity of all production lines by implementing up-to-date technologies.

MAINTENANCE

C2S technicians are available to perform technical audits or regular maintenanceinterventions (5 ,2 ,1 years assistance). Thanks to the vibration analysis, a simple and costsaving way to diagnose a machine, they allow to schedule shutdown for repair at aconvenient period so that downtime is kept to a minimum. C2S also supports the on-sitemaintenance team in organising current preventive operations. This is the advantage ofworking with experienced machine makers !

C2S: +55 highly qualified & experienced technicians ready to help you all over the world!

REBUILDING

C2S is the ideal partner for individual machines or complete plants rebuilding. Regardless of whether the expertise is done on Customer's site or in one of the Gauder Group's high performances workshops (platforms in Europe, China, USA), the C2S experts enable to refurbish existing equipment turning them into new!

START-UP

Choose the safer way for plant moving/line restart thanks to C2S actions guaranteeing value-added operations (logistic, wiring, mechanical alignment, re-start by specialized engineers).

CONSULTING

At C2S, a wide team of specialists is available for technical audits and expertise, as well as training and consulting.

(1) Overall Equipment Effectivene

The services division turnover has been rising by 400 % for 12 years
